## **SEND Support**

This is a list of information websites, tips and resources to help you support your children with their additional needs, learning and self-esteem. Children have varying needs and there is no one size approach fits all. It is quite common for children to have additional needs that span all these areas, so select the resources that meet the needs of your child, without worrying too much about the label or category they fall under. Everyone has strengths and differences, and these SEND strategies will be beneficial to many children, whether they have a diagnosis or not.

	Autism

Websites	https://www.autism.org.uk/about/family-life/parents-carers.aspx
Tips	<ul> <li>Children with autism benefit from structure and routine. You can help them by using visual timetables to help them see what is happening at each step of the day, so they know in advance what they will be doing next. This will relieve some of their anxiety.</li> <li>You might want to set a specific place for them to do any work or tasks. At school they</li> </ul>
	may have this in the form of a workstation or safe space to support their learning. Each child's workstation may differ slightly, so you could ask your child to help you set one up that will suit them or that they are already used to.
	<ul> <li>Prepare them for changes in routine throughout the day and build time in for transitions from one activity to another.</li> </ul>
	<ul> <li>Help your children to recognise and name different emotions and feelings. You can do this by discussing their own emotions, how characters in books and on TV programmes might be feeling and how you yourselves might be feeling. Alongside naming the emotion, describe it and explain why you, they or fictional characters might be feeling like that. You can also play role play guessing games and ask them to name the emotion and say why.</li> </ul>
	- Use a 5 point scale to support children in managing their emotions. Starting a sentence with "I wonder if" may help to open up conversations.
	- Use social stories and comic strip cartoons to help children understand different situations and perspectives and address behaviour.
	- Have a visual aid to support wanted and unwanted behaviours
	- Be aware of your child's sensory needs and support them in managing that need to help them learn e.g. sound reducing earphones if noise is a problem, comfortable clothes, keep the area surrounding the work space clear to avoid over-stimulation etc.
	- Play lots of games with your child to encourage social skills, such as taking turns and winning and losing. Favourite board games are also helpful when developing this skill.

Tips	- Offer routines and structure
	- Create a quiet space for them to learn with no distractions.
	- Give them something to fiddle with whilst you are talking to them or you want them to
	focus. It can also be helpful to let them move around whilst they listen.
	- Ask them to do one task at a time
	- Provide checklists or visual timetables to support organisation.
	- Use timers to help with time management and build in frequent movement breaks.
	<ul> <li>Provide lots of opportunities for exercise and movement.</li> <li>Set up a reward scheme to encourage them and support them with their behaviour.</li> </ul>
	- Build on success and help children to pursue more of what they enjoy.
	- Put clear boundaries in place.

Tips	- It is important to encourage children to recognise and pursue the areas in which they
-	excel (do more of what they enjoy) and support them with the areas they find difficult.
	-Allow children to use a word processer to complete some written tasks. This highlights
	spelling and offers alternatives. If they can't type, encourage them to learn, so that they
	are able to use a Word Processer with more speed and fluency. BBC Bitesize and Doorway
	Online both offer free touch typing lessons.
	-Play games to support memory and retention e.g. pairs, Go Fish etc. (see resource links
	for more ideas)
	To more facus,
	-Enable children to access age related audiobooks to develop a love of reading. Encourage
	(don't force or push) them to share what's happening in the story and share their
	excitement, wondering aloud what will happen next. This will also develop their
	vocabulary and comprehension, without them even realising that they are learning.
	-Don't make reading a battle. Encourage children to read one page and you read the next
	page. Read some books to them for pleasure and invite them to read a section if they want
	to (don't force it if they don't want to). By developing a love of books and stories children
	will naturally want to learn how to read, so make the experience as pleasurable as you can.

	Speech and Language
Information	https://www.thenational.academy/online-classroom/specialist/communication-and-
Websites	language#subjects
Tips	Speech sounds
	- Model speech to the children by repeating words back to them correctly.
	Understanding:
	- Give children time to process what you have asked and respond.
	- Use simple language and break instructions down into smaller steps.
	- Encourage children to answer questions, such as who, what, where, when and why?
	When reading their books. Encourage them to tell you the story in their own words.
	Expression
	- Talk about all your experiences in detail, teaching new vocabulary all the time.
	- Discuss vocabulary in books, making sure the children understand the meaning of
	tricky words.
	Social Communication
	- Play lots of games with your child to encourage social skills, such as taking turns and
	winning and losing.
	<ul> <li>Use a visual timetable and visual aids to provide structure and routines.</li> </ul>
