

Academy Committee: Governor Profiles

Sharon Wilson – Chair of Governors

I am a chartered engineer working at Toyota Motor Manufacturing UK where I manage a team of engineers supporting improvements in our production processes. After four years as a governor of Costock C Of E Primary School, I became a governor at East Leake Academy in December 2019 and Chair of Governors in January 2023. I am happy to be able to contribute towards the welfare and development of all students and staff.

Richard Osborn – Vice Chair of Governors

Having served two four-year terms as a governor at Gotham Primary School, I was keen to make use of the skills I learned there to help East Leake Academy's team. I have a very keen interest in the well-being and education of all students and frequently assist staff both at school and on educational trips. My interests lie mainly within the field of science and have previously taught informally about computing and astronomy.

Jane England – Staff Governor

I have worked at East Leake Academy since September 2006 and I am currently Pastoral Leader for Year 8, having previously been Head of Social Sciences. I have been teaching GCSE and A Level Business for many years. I have two teenage children and live in a lovely market town called Ashby de la Zouch in Leicestershire, close to my family and friends. My hobbies are going to the gym, reading and shopping. I am passionate that our students get the very best deal in their education and staff are inspired and supported in their career at East Leake Academy.

Utkarsha Joshi – Appointed Governor

I am a retired chemical engineer and have held senior management positions in industry. I have spent the bulk of my career at British Gypsum, East Leake. I have also been involved in socio-community arts and education sectors in voluntary capacities. I hope to support the staff, students and governors at East Leake Academy to achieve their ambitions by sharing my life experiences and thus give something back to the community.

Kevin Leckie – Appointed Governor

I am a retired secondary school science teacher and enjoyed a long and successful career, where I have gained a wealth of experience in secondary education, including holding a variety of middle and senior leadership roles. I am keen to retain a role in secondary education and positively contribute to the success of the Academy.

Caroline Marion – Appointed Governor

I became a governor as I wanted to be more involved in the local community and use my skills and experience gained during my career.

My working life has been across two sectors, education and international buying. I worked for the Diocese of Cheltenham and was the main contact between the schools, the governors and the government, being part of the team setting up the Multi Academy Trust's within Essex for 145 schools.

Whilst living overseas I enjoyed working as a volunteer with the blind and children with learning disabilities. I trust I will be able to use this experience in a way that will support the team and students at East Leake Academy.

Ally Moore – Parent Governor

I live in East Leake and am the Assistant Clerk of East Leake Parish Council, although have previous experience within the education sector. I became a Parent Governor in December 2023 and have an active interest in the community, both professionally and as a parent. My aim is to make a positive contribution by helping to set the academy's vision and objectives in order to achieve high standards for the students and staff.

Sarah Riches – Parent Governor

I live locally and work full-time at Nottingham Trent University, co-ordinating workshops and seminars for small and medium-sized enterprises in the Nottingham Business School.

I became a parent governor in December 2023 and am keen to ensure that students have the best experience and best education whilst at school.

Gareth Roberts – Appointed Governor

Originally from Liverpool, I moved to the area in 1995 working as a Director and Trustee in the Pension and Investment industry. In 2014 I made the decision to apply to become a Magistrate and I have been a Justice of the Peace, sitting in both Leicester and Loughborough Courts, since 2015. This role has given me insight into the importance of education in providing stability and understanding of our role in society. I am keen to make a positive contribution to the safeguarding and wellbeing of the students of East Leake Academy.

Andrea Hewitt – Governance Professional

I have worked as Clerk to the Academy Committee since November 2012 on the conversion to academy status. My role is to advise the governors on all aspects of governance, constitutional and procedural matters and educational legislation, thereby supporting the committee and the leadership team.
